

Albany County Rail Trail

The Albany County Rail Trail follows the path of the former Delaware & Hudson Railroad, with paved trails perfect for biking, running, and walking. The section from Delmar to Voorheesville was freshly paved in the summer of 2018, allowing for a smooth ride across the trail, apart from a small remaining gravel section near the Delmar parking area.

The three main parking lots for the trail are found in Voorheesville, Delmar, and **S. Pearl St. in Albany**. The Albany parking lot even has [CDPHP Cycle](#) bikes available for rental via CDTA's bike share system, for those who may not own a bike but want to try a ride.

The trail covers a breadth of scenery, from steep ravines and rapids in the Normanskill, to suburban communities, to woods and farmland. While no sections are steep, note that there's a steady incline from the S. Pearl St. parking lot to the Delmar area of the trail.

Getting There - 722 S Pearl St., Albany NY
